**Further Notice to Mariners of Activities associated with the Development of
the Kincardine Offshore Windfarm – Towing WF1**

This is a notice of the planned activity of the Tow of WF1.

Please be advised that an offshore supply ship will be towing WF1 from Dundee to the Kincardine Offshore Windfarm Site, for the Kincardine Offshore Windfarm as shown in the figure below.

This operation is anticipated to take place over a day window, excluding weather down time. It is anticipated that the works will take place between (16th Aug 2018) and (17th Aug 2018).

1. Area of Planned Activity

		Page 3 of 4

Floating foundation WF1 is the towed vessel.

Name	WF1	
Length Overall	*65.264m	
Breadth	75.36m	

3. General Safety Advice

All vessels engaged in the Towing Operation will exhibit appropriate lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea; relative to their operations. All vessels engaged in the activity will also transmit an Automatic Identification System (AIS) message. The Vessel Master will issue regular broadcasts whilst the vessel is operating to ensure minimal disruption and that vessels maintain an appropriate and safe distance.

ALL VESSELS ARE REQUESTED to give the vessel and WF1 a wide berth. Vessels should maintain an appropriate and safe distance of 500m, where possible, when passing the vessel and should pass at the lowest possible speed to avoid vessel wash effects.

MARINERS ARE ADVISED to navigate with caution and keep continued watch, when navigating the areas. Mariners are advised to keep continued watch on VHF Ch. 16 when navigating the area.
