Notice to Mariners: Notice of Upcoming Soils investigation

1) Summary

Please be advised that there will be a short CPT programme of work (approximately 9 days excluding weather) at the Kincardine Field. The scope of the operations is:

- CPT seabed investigation in close proximity to each floating platform
 - A Cone Penetration Test (CPT) is an in-situ geotechnical method where an instrumented, small diameter cone is pushed into the seabed at a constant rate to measure soil resistance, and other soil properties.

The work is expected to start around 16 March 2026.

Survey vessel will be Dina Polaris, which will be listening on channel 16 at all times.
